

Chennai Super Kings - IPL Legacy Website

A premium, futuristic, fully responsive website dedicated to Chennai Super Kings (CSK), showcasing the complete IPL legacy of the franchise through immersive 3D experiences and interactive storytelling.

Project Structure

```
csk-legacy-website/
├─ csk-legacy.html      # Main HTML file (69 KB)
├─ csk-styles.css        # Complete stylesheet (42 KB)
├─ csk-scripts.js        # JavaScript functionality (32 KB)
└─ README.md            # This file
```

Quick Start

Option 1: Open Directly

Simply open `csk-legacy.html` in any modern web browser.

Option 2: Local Server (Recommended)

```
# Using Python 3
python -m http.server 8000

# Using Node.js
npx serve .

# Using PHP
php -S localhost:8000
```

Then visit: `http://localhost:8000/csk-legacy.html`

Option 3: Deploy Online

Upload all three files to any static hosting service:

- **GitHub Pages**
- **Netlify**
- **Vercel**
- **Firebase Hosting**
- **AWS S3**

Features

1. Cinematic 3D Hero Section

- Three.js rendered 3D trophy with floating particles
- Dynamic lighting effects with mouse parallax
- Animated gold particles
- Smooth scroll-triggered animations

2. CSK Legacy Timeline

- 9 major milestones from 2008 to 2025
- Interactive 3D timeline cards with tilt effects
- Glassmorphism design with glow effects
- Responsive alternating layout

3. IPL Trophy Cabinet

- 5 IPL championships + 2 CLT20 titles
- Interactive 3D flip cards with detailed stats
- Rotatable trophy models with hover effects
- Real match data and player statistics

4. Legendary Captains

- MS Dhoni & Rituraj Gaikwad profiles
- Interactive flip cards with statistics
- Captaincy record comparison
- Animated stat counters

5. CSK Hall of Fame

- 8 legendary players with detailed stats
- Animated player showcases
- Tilt card effects with depth
- Interactive statistics panels

6. Championship Gallery

- 3D carousel with auto-play
- Touch/swipe support
- Grid layout with hover effects
- Championship moments showcase

7. Advanced Technologies

- **Bootstrap 5** - Responsive grid system
- **Three.js** - 3D rendering engine
- **GSAP + ScrollTrigger** - Advanced animations
- **AOS** - Scroll-triggered reveals
- **Custom CSS** - Glassmorphism, neon glow, parallax

Design System

Colors

- **Primary Yellow:** #F9D71C
- **Gold:** #D4AF37
- **Dark Gold:** #B8860B
- **Background:** #0a0a0a
- **Card Background:** rgba(20, 20, 20, 0.7)

Typography

- **Display:** Orbitron (futuristic)
- **Body:** Inter (clean, readable)
- **Elegant:** Cinzel (sophisticated)

Effects

- Glassmorphism cards
- Neon glow accents
- Parallax scrolling
- Mouse-responsive interactions
- Smooth transitions

Responsive Breakpoints

- **Desktop:** 992px+ (full experience)
- **Tablet:** 768px - 991px (adjusted layouts)
- **Mobile:** < 768px (stacked, optimized)
- **Small Mobile:** < 576px (compact)

Browser Support

- Chrome 90+
- Firefox 88+
- Safari 14+
- Edge 90+
- Opera 76+

Accessibility

- Semantic HTML5 structure
- ARIA labels where needed
- Keyboard navigation support
- Focus-visible indicators
- Reduced motion support (`prefers-reduced-motion`)
- Color contrast compliance

Performance

- CDN-loaded libraries (cached)
- Optimized animations
- Intersection Observer for lazy loading
- Tab visibility API for pausing animations
- Mobile-first responsive design
